

## **FOR IMMEDIATE RELEASE**

**FEBRUARY 20, 2004**

### **DELAWARE STATE POLICE BELL 407 MULTI-MISSION EMS INTERIOR**

**LIFEPORT, INC.** Woodland, WA recently won a contract to design, manufacture and certify a multi-mission EMS interior for use in a Bell 407 helicopter for Delaware State Police.

This medical interior will include a patient loading system or MedDeck with folding AeroSled TS stretcher, along with a newly designed light-weight composite MedWall Cabin Service Station located in the hat rack area of the aircraft offering easy access to medical outlets and a locking drug box a MedCabinet for mounting and/or storage of carry-on medical equipment. This interior will also feature the LifeGard MedFloor an extremely durable and seamless medical floor with both biocide and fungicide properties. The Advanced Life Support system or MedPak will be located in the left-side cargo area and includes an oxygen cylinder, and suction system.

Delivery of this aircraft is expected for April 1<sup>st</sup>, 2004.
