

NORTH MEMORIAL HEALTH CARE CHOOSES LIFEPORT

Minnesota-based North Memorial Health Care has selected LifePort to manufacture and install two (2) complete medical interiors for their A109E Powers. The aircraft, due to go into service later this year; incorporate numerous interior upgrades and increased storage.

Some highlights of the North Memorial medical interiors include:

- Composite base cabinet equipped with locking narcotics storage, IV warmer, vacuum canister, and lateral-tracking MedDeck
- Cabinet top covered with anti-bacterial, anti-microbial LifeGard coating produced by LifePort Interiors and used exclusively by LifePort
- MedDeck articulating litter system allowing tracking of system outside aircraft for ease of patient loading
- Advanced life support (ALS) MedPak, installed in baggage compartment
- Overhead outlet panels with digital oxygen gauge, assorted lighting, and gas and electrical outlets
