

## **FOR IMMEDIATE RELEASE**

**FEBRUARY 20, 2004**

### **LIFEPORT FULLFILLS MULTI-AIRCRAFT AEROMEDICAL CONTRACT TO PETROLEUM HELICOPTERS, INC.**

**LIFEPORT, INC.** Woodland, WA recently shipped the 12th in a series of Eurocopter AS350 aeromedical interiors, which fulfills a long-term contract with Petroleum Helicopter, Inc.

These medical interiors include the LifePort MedDeck patient loading system with AeroSled RS stretcher, along with a MedWall-Pilot/Patient barrier and cabin service outlet station. The advanced life support module or MedPak is located in the cargo area and includes an oxygen cylinder, suction, compressed air system and electrical components. This interior will also feature the LifeGard MedFloor an extremely durable and seamless medical floor with both biocide and fungicide properties. These interiors comply with CAMTS requirements.

LifePort, Inc. and Petroleum Helicopters, Inc. have been working to develop standardize aeromedical interior systems throughout their fleet.
